First Conditional

We use the **first conditional**:
- A possible situation in the future.
- Predicting a likely result in the future (if the condition happens)
Also we can put either part of the sentence first.
When using If + negative we can use **unless**.

If + **present simple**, **future simple**
//
Future simple if + **present simple**

Examples:
1) If you **study** hard, you **will pass** the exam.
2) You **won't win**, if you **don't train**
3) You won't win **unless** you train.
